## Network Node - Node Support Pole Application Checklist

### GENERAL INFORMATION

- 1) See the Wireless Services (Small Cells) Design Manual of Chapter 90, "Rights of Way Use and Management" of the Code of Ordinances of the City of McKinney regarding for the installation of network nodes and node support poles.
- 2) Application will be reviewed for completion within thirty (30) days after submittal to the City.
- 3) All required materials shall be submitted to the **Public Works Department** and in digital format as a PDF, unless specifically instructed otherwise. All digital items shall be submitted via the City's website following the instructions outlined at [www.mckinneytexas.org/Wireless Services \(Small Cells\) Right-of-Way Permits](http://www.mckinneytexas.org/Wireless Services (Small Cells) Right-of-Way Permits)

### APPLICATION CHECKLIST

Item - Node Support Pole Application Checklist	Applicant
Completed ROW permit form.	<input type="checkbox"/>
Application Fee (\$1,000 for each pole submitted with application). Total Number of Node Support Pole(s) included with this application? _____ x \$1,000 = \$_____	<input type="checkbox"/>
Aerial Map and street view image showing location of each new pole location.	<input type="checkbox"/>
Geographic Information System (GIS) data submitted to the City as outlined at <a href="http://www.mckinneytexas.org/Wireless Services (Small Cells) Right-of-Way Permits">www.mckinneytexas.org/Wireless Services (Small Cells) Right-of-Way Permits</a>	<input type="checkbox"/>
Certification that new pole location meets 300 ft minimum spacing requirement, but if not then Provider must provide evidence or other material supporting a claim that the min. spacing requirement would prohibit the placement of new node support poles in the subject area.	<input type="checkbox"/>
Scaled dimensional drawings or pictures of the proposed node support pole and any other proposed wireless facilities to be installed in connection with the proposal, indicating the spacing from existing curbs, driveways, sidewalks, and other existing poles. This shall include a before-and-after street view image of the pole and all proposed attachments and associated standalone equipment.	<input type="checkbox"/>
Scaled dimensional construction and engineering drawings indicating the current public right-of-way line and showing any proposed underground conduit and equipment and its spacing from the City's existing utility facilities. Such drawings shall also show a sectional profile of the public right-of-way and identify all existing utilities and existing utility conflicts.	<input type="checkbox"/>
Based on the proposed scope of work, Provider shall submit a traffic control plan, storm water pollution prevention plan, and/or trench safety plan.	<input type="checkbox"/>
Documentation identifying the frequency on which the proposed network node will operate and certification that the proposed network node shall not cause any interference with the City's traffic signal system, public safety radio system, private police cell system, or other City communications infrastructure.	<input type="checkbox"/>

\*ROW Permit #: \_\_\_\_\_

Item - Node Support Pole Application Checklist Continued	Applicant
The names and telephone numbers of at least two persons serving as emergency contacts for the Provider who can be reached by telephone 24 hours a day, seven days a week, in the event of an emergency.	<input type="checkbox"/>
Sealed engineering drawings for the electrical service providing power to the proposed network node, which must include the conduit size, circuit size, calculations for amp, and distances running. Provider shall use 120 voltage when connecting to any City service pole or decorative pole and shall provide a key to meter upon inspection.	<input type="checkbox"/>
If the location of the proposed new node support pole lies within right-of-way adjacent to a state or federal highway, the Provider must provide evidence of a permit from the state or federal government.	<input type="checkbox"/>
