APPENDIX A: ALTERNATE SCENARIOS

OVERVIEW

The Dallas-Fort Worth metropolitan area is one of the fastest growing regions in the United States. Collin County is expected to absorb a large portion of this growth, with some population projections showing the County adding as many as one million new residents by 2030. In response, regional planning efforts have recognized the need for new transportation infrastructure to support this growth, particularly the need for new highway routes to absorb increased vehicular traffic and mitigate current and future congestion.

In the summer of 2017, TxDOT initiated a study to analyze various roadway alternatives for US Highway 380 through Collin County and the City of McKinney. The goal of the study is to identify routes and preserve land and right of way for a new highway before development pressures limit roadway design options and increase potential future impacts to adjacent residential and commercial development. To date, the study includes 5 alignment alternatives, which can be broadly grouped into two categories based upon their impact to the city of McKinney; 3 bypass options (Red, Blue, and Yellow Alignments) and 2 options that use the existing US 380 Right of Way (Pink and Green Alignments). Each of these alignments will have differing impacts on regional traffic patterns and land development, the implications of which must be considered as part of the McKinney 2040 Plan.

A PROACTIVE APPROACH

When TxDOT initiated the US 380 feasibility study, the City of McKinney immediately recognized that regardless of which specific alignment was eventually selected, the new highway would have significant impacts on land use patterns and development pressures within the community. The City wanted to ensure that the McKinney 2040 plan would remain current and responsive to community needs once a final route was determined, necessitating a future land use plan that could respond appropriately to whichever alignment was ultimately chosen. To realize this goal, the City took a proactive approach to the planning process by reaching out to the community to gather public input on how the Future Land Use Plan might change under each of the alignment options. The feedback that was received was then used to create alternate future land use maps for each option, which have been included in this appendix. This ensures that no matter which alignment is ultimately selected, the city will have a map and a plan in place that respond appropriately, without the need for a new comprehensive plan or significant plan update.

COMMUNITY FEEDBACK

Public input and community feedback was an essential part of the development process for the Future Land Use Map alternatives for each roadway alignment option. An open house was held on June 14, 2018 to present the various alignments under consideration to the public, as well as provide an opportunity for the public to give input regarding potential highway configuration styles, the effects each alignment might have on neighborhood character, and how they felt the preferred future land use plan should respond to each of the roadway alignment options. The feedback received indicated that the community recognized the potential opportunities for new mixed use or commercial development nodes at interchanges created by the various alignment options and major thoroughfares. However, the broad consensus that was ultimately conveyed to the planning team was a desire by the community to maintain a future land use plan for each of the alignment options as similar as possible to the Preferred Future Land Use Map that had already been developed.
APPENDIX USE

The City Council has adopted this appendix to ensure that the City of McKinney has a land use direction set that corresponds to whichever alignment is ultimately chosen for the roadway expansion. The specifics of each alignment will influence the community’s Master Thoroughfare Plan, district boundaries, and placetype distribution, and the changes that have been made to these elements as part of each Future Land Use Map Alternative reflect the will and vision of the community as it stands today. This does not, however, preclude the community from reevaluating the Land Use Map in the future once a final road alignment has been selected and various other feasibility and environmental studies have been completed; as with all long-range planning documents, the map should be reviewed regularly to ensure that it remains in alignment with the community’s needs and vision.

ALIGNMENT OPTIONS

As of the summer of 2018, TxDOT is considering 5 alternative roadway alignments for the future expansion of US Highway 380. The differences between the Preferred Future Land Use Plan and the land use map alternatives, consisting of 3 bypass alignment options and two alignments using the current US 380 route, are outlined below:

RED ALIGNMENT

• The Commercial Center place type at the intersection of Bloomdale Rd and Ridge Rd is shifted to follow the interchange of Ridge Rd and the Red Alignment
• A Mixed-Use Center place type occurs on the southeastern corner of the interchange created by the Red Alignment and Lake Forest Dr in the Medical Center District
• An Urban Living node moves north from the intersection of Wilmeth Rd and Lake Forest Dr so it is adjacent to the Mixed-Use Center next to the Red Alignment
• The boundary of the Medical District expands northwest to include everything south & east of the Red Alignment and Stover Creek
• The southern edge of the boundary between the Scenic District and the Honey Creek District shifts westward to follow the Red Alignment
• The district boundary between Honey Creek and Oak Hollow shifts slightly south to follow the altered alignment of Bloomdale Rd
• Community Commercial along Wilmeth Rd in the East Fork District shifts slightly westward to encompass the interchange between Wilmeth Rd and the Red Alignment
• Portions of the Urban Living place type south of Wilmeth and east of the Red Alignment changes to the Suburban Living place type
• The southeasternmost node of Commercial Center in the Business & Aviation District moves to the east side of the interchange between FM546 and the Red Alignment
• The westernmost portion of the district boundary between the Business & Aviation District and the Homestead District shifts south to follow the Red Alignment
• The boundaries of the Employment Mix place type in the Business & Aviation District and the Estate Residential place type in the Homestead District shifts to follow the adjusted district boundaries
**Blue Alignment**

- A Mixed-Use Center place type occurs on the southeastern corner of the interchange created by the Blue Alignment and Lake Forest Dr in the Medical Center District.
- An Urban Living node moves north from the intersection of Wilmeth Rd and Lake Forest Dr to be adjacent to the Mixed-Use Center next to the Blue Alignment.
- The boundary between the Honey Creek District and the Collin Crossing and Oak Hollow districts shifts slightly south to follow the Blue Alignment.
- The boundary between the Professional Center and Commercial Center place types in the Honey Creek and Collin Crossing Districts shifts to follow the revised district boundaries.
- The boundary between the Suburban Living and Urban Living place types in Honey Creek and Oak Hollow shifts to align with the new district boundary along the Blue Alignment.
- The Urban Living place type on the southwest corner of Bloomdale Rd and Tennessee St is extended north and east to the interchange of Tennessee St and the Blue Alignment.
- The Commercial Center place type at the intersection of FM546 and Airport Drive shifts northwest along FM546 to the southeastern side of the interchange with the Blue Alignment.

**Yellow Alignment**

- A Mixed-Use Center place type occurs on the southeastern corner of the interchange created by the Yellow Alignment and Lake Forest Dr in the Medical Center District.
- An Urban Living node moves north from the intersection of Wilmeth Rd and Lake Forest Drive so it is adjacent to the Mixed-Use Center next to the Yellow Alignment.
- The southern edge of the boundary between the Scenic District and the Honey Creek District shifts westward to follow the Yellow Alignment.
- Community Commercial along Wilmeth Rd in the East Fork District shifts westward to encompass the interchange between Wilmeth Rd and the Yellow Alignment.
- The Commercial Center place type at the intersection of FM546 and Airport Dr shifts northwest along FM546 to the southeastern side of the interchange with the Yellow Alignment.

**Existing 380 Corridor Alignment**

* The Pink and Green corridor alignments are identical along the portions that pass through the McKinney City Limits and ETJ, and are thus shown here as a single future land use map alternative.

**Pink/Green Alignment**

- The boundary between the Historic Town Center District and the Oak Hollow District shifts south to follow the Pink and Green Alignments.
- The portion of the Historic Town Center place type north of the Pink and Green alignments is replaced with a combination of Suburban Living and Employment Mix place types.
- The Commercial Center place type at the intersection of FM546 and Airport Dr shifts northwest along FM546 to the southeastern side of the interchange with the Pink and Green Alignments.

Octoberfest Visual Preference Survey Results

WHAT DO YOU WANT FOR MCKINNEY’S FUTURE?

Online Survey Summary Responses

How important are these features so McKinney is a desirable place to live?

- Sense of safety
- Good schools
- Good public services, parks & facilities
- Sense of community
- Walking and biking trails close to neighborhoods
- Historical character
- Ability to 'age in place'
- Arts and cultural activities
- Affordable housing
- A variety of housing choices

0% 10% 20% 30% 40% 50% 60% 70% 80% 90% 100%

Very Important Somewhat Important Neutral Somewhat Unimportant Very Unimportant I’ve Not Sure
Online Survey Summary Responses

How important are these public transportation benefits to McKinney?

- Make it easier for people to get to jobs in McKinney: Somewhat Important
- Give McKinney residents a choice in how they travel: Somewhat Important
- Make it easier for McKinney residents to get to other parts of the region: Very Important
- Making it easy for people to get to entertainment destinations in McKinney: Very Important
- Create places for transit-oriented development: Neutral
- Reduce the cost of transportation for McKinney households: Somewhat Important
- Enable McKinney households to have fewer cars and trucks: Neutral
- Raise McKinney’s visibility to travelers from other parts of the region: Somewhat Important

Online Survey Summary Responses

How important are these aspects of mobility to McKinney residents and businesses? (Oktoberfest)

- Reduce congestion on McKinney streets: Very Important
- Create roads that are compatible with surrounding neighborhoods: Somewhat Important
- Attract new businesses to McKinney: Somewhat Important
- Make it easier for people to get to places in McKinney: Very Important
- Give McKinney residents a choice in how they travel, in addition to their own car: Very Important
- Make it easier for McKinney residents to get to other parts of the region: Very Important
- Create places for transit-oriented development: Somewhat Important
- Support McKinney’s desired patterns of development: Somewhat Important
- Get goods and materials delivered to and from McKinney businesses: Somewhat Important
- Raise McKinney’s visibility to travelers from other parts of the region: Very Important
Online Survey Summary Responses

The list below suggests ways the natural environment could benefit the McKinney community. How important are they to McKinney’s future?

- Preserve McKinney’s natural areas and creatures.
- Provide places for walking or biking.
- Provide places for McKinney residents to enjoy active recreation.
- Use natural systems to improve McKinney’s environmental qualities.
- Become part of the identity that makes McKinney a unique community.
- Provide children a place to learn about nature and the environment.
- Use natural systems to reduce costs for public infrastructure like streets and drainage.
- Improve air quality.
- Reduce consumption of nonrenewable resources.
- Create amenities for neighborhoods.
- Reduce carbon footprint.

Online Survey Summary Responses

How important are these features to downtown’s success in the future?

- Historical character and preservation
- Sense of community
- Easy to walk and bike in
- Gathering place for community celebrations
- Restaurants
- Farmers markets
- Public services, parks & facilities
- Small business support services
- Incubators for emerging industries and start-ups
- Schools and training center
Preliminary Results Summary

Early input suggests that the following issues are important amongst a majority of the stakeholders:

- Maintaining City infrastructure (streets, parks, buildings) over time
- Providing comparable city services and amenities city wide
- Growing the City’s tax base in order to be economically sustainable and resilient over the long term
- Inventing/Reinventing major corridors
- Using energy, water, and other resources efficiently
- Keeping existing neighborhoods vital
- Continuing to embrace downtown as the historic jewel of McKinney
- Maximizing the opportunity presented by the airport
- Providing quality schools and educational opportunities
- Respecting natural features and topography
- Maintaining a sense of community and quality of life as the city grows
- Determining the development pattern for the future of currently undeveloped areas
- Providing efficient transportation infrastructure

Results Summary

- Issues that require further evaluation include:
  - What role should public transportation play in McKinney, either for trips to McKinney destinations or for regional connection
  - What types of businesses will be best for increasing tax base and job growth
  - What is the best approach to creation and location of walkable, mixed use areas within McKinney
  - What is an appropriate mix of housing variety and densities
  - Is there enough opportunity for different generations and users to remain in McKinney (i.e. corporate to workforce and young generation to older generation)

Team #1 Scenario Concept

A diverse community that respects community, historic heritage, and embraces balanced growth.

Team #2 Scenario Concept

We envision a city that promotes a high quality of life that balances live, work, play opportunities for an interconnected and economically sustainable community, while respecting the give natural environment.
Team #3 Scenario Concept

A city utilizing our existing attributes by preserving the unique qualities and characteristics and open space, while recognizing growth and development as important factors to future opportunities.

Team #4 Scenario Concept

Respecting the past, while growing the future; Recognizing our unique heritage and culture, while embracing diversity and community, and respecting the sustainability or growth, the City of McKinney will be a vibrant place to live, work, and play.
Team #5 Scenario Concept

- City to attract all ages to remain
- Balance all ages in residing or living McKinney
- City of McKinney work, live, play plan for balance living, working, and playing, education and entertainment for all ages. Keep transportation, living and Healthcare available for all
- Incorporate all parts of McKinney
- Support aging in place

Team #6 Scenario Concept

Build an inclusive, sustainable community by maximizing local resources and creating long term solutions.
Team #7 Scenario Concept

- All people can grow
- Develop residences in North
- Custer into Hwy-commercial/flex office
- More jobs at Airport

Team #8 Scenario Concept

A unified, economically sustainable, well-educated city: meeting the needs of its diverse citizenry
Team #9 Scenario Concept

- Growing the future, Respecting the past
- Growing a diverse community and respecting historic in a sustainable way providing transportation options and housing options.
- Preserve and promote McKinney’s cultural, natural, and human resources while growing sustainably.

Team #10 Scenario Concept

Create/build an environment that engages the youth that will drive the opportunities and protect the historic and natural landscapes while developing and embracing diversity and encouraging business growth.
Team #11 Scenario Concept

Plan for McKinney’s future growth and needs while maintaining current quality of life.

January Community Workshop

- About 95 participants
- Worked together in 14 teams
- Review the implications of three alternative scenarios
- Teams’ agreement on their scenario assessments
  - Scenario Performance
  - Scenario Response to Community Issues
  - Scenario Support for Ideas Proposed by Community Members
  - Important Features for a Preferred Scenario
- Share assessments from all teams
- Obtain individual comments and suggestions

Alternative Scenario 1 – Current Trend

- Illustrates and evaluates the anticipated outcome of the existing Future Land Use Plan
- Primary attributes include:
  - Employment opportunities along major transportation corridors
  - Continued single family residential development north of US 380
  - Neighborhood cores and villages that meet nearby residents’ commercial needs
Alternative Scenario 2 – Distinctive Districts

- Identifies place-specific community assets as defining anchors for different place types and development patterns.
- Places created around each asset would vary in size, scale and intensity based on the asset.
- Creates a variety of community forms in intentional locations that support the central function of the asset.
- Creates opportunities for business locations and private investment by businesses that benefit from proximity to particular assets.

Alternative Scenario 3 – Focused Options

- Focuses on providing choices for McKinney residents and businesses; specifically related to:
  - Housing variety
  - Employment options
  - Mobility choices
  - Entertainment and activity options
  - Improved connectivity to neighboring communities
- Growth and development generally focused around three distinct districts.
- Higher intensity development and business functions located at central point of each district with transitions to less intensity along the peripheries.
- Outside these three districts, this scenario envisions development that provides new single family neighborhoods and neighborhood commercial locations predominately aligned with the current trend.
Scenario Evaluation – Team Feedback

- Scenario 2 was most desirable overall, according to 6 teams
- Scenario 3 was most desirable overall, according to 6 teams
- Scenarios 2 and 3 were equally desirable overall, according to 2 teams
- Scenario 1 was not preferred by any team

### Scenario Evaluation – Individuals’ Feedback (ranked by priority order)

‘Vision Framework’ Input Phase

Public Outreach

• Joint Session for City Council & CPAC (April 11)
• Community Open Houses (May 18 & 19)
• www.onemckinney2040.com
May Community Open Houses

- Over 90 participants.
- May 18 at Senior Recreation Center.
- May 19 at Christ Fellowship Church.
- Presentation followed by discussion at stations.

Participants’ Involvement in ONE McKinney 2040

- City Council or P&Z member
- CPAC member
- Participated in earlier workshops
- Participated online
- More than one of these
- This is my first involvement
ONE McKinney 2040: Draft Vision Statement

We are ONE McKinney – a community that supports and celebrates all of its people, neighborhoods and districts. We are united by our shared natural assets and heritage, and our community offers neighborhood choices that appeal to people throughout their lives. Smart public and private investments make McKinney resilient and adaptable, so it remains a first choice for business and entertainment through 2040 and beyond.

Preferred Scenario - Summary

Focuses on distinctive districts, each with a clear vision and market focus; allows for more strategic growth and identities within the community

Results in:

- 54,900 new residential units
- 7,700,000 SF new retail
- 11,000,000 SF new office
- 8,100,000 SF new industrial

2040 Population: 284,000
2040 Employment: 138,000
**Place Types – the Scenario ‘Palette’**

- Rural Living (RL)
- Urban Residential (UR)
- Neighborhood Commercial (NC)
- Estate Residential (ER)
- Entertainment Center (EC)
- Commercial Center (CC)
- Suburban Residential (SR)
- Transit Ready Development (TRD)
- Mixed-Use Center (MU)
- Historic Town Center (HTC)
- Employment Mix (EM)
- Professional Campus (PC)
- Manufacturing & Warehouse (MW)
- Aviation (AV)

**District Stations**

- Cultural and Entertainment Centers
  - Town Center
  - Mill
  - Honey Creek Entertainment
- Economic Assets
  - Business & Aviation
  - Medical
  - Collin Crossing
- Housing and Neighborhood-Oriented
  - Northridge
  - Trinity Falls

June 2018 Community Open House Highlights

• Open House held June 14, 2018 at Collin College Conference Center
• Approximately 50 participants
• Objectives:
  • Update community on status of process
  • Share approach to TXDOT’s 380 alternatives
  • Receive input about policy direction & implications of 380 alternatives for the preferred development pattern
• Group input using electronic keypad polling
• Discussion and input at 10 stations
Stations – Development with 380 Options

- Where We’re At
- Commercial & Mixed Use Centers
- Existing Community Districts
- Western Developing Districts
- Revitalizing Districts
- Employment Districts
- Eastern Developing Districts
- Limited Access Roadway Design Options
- Investment Priorities
- Other Topics

Participants’ Roles in Process

I have been involved in ONE McKinney 2040 as:

- City Council or P&Z member
- Comprehensive Plan Advisory Committee member
- Participated in earlier workshops
- Participated online
- More than one of these
- This is my first involvement
How consistent is this Vision Statement with your own idea of McKinney’s best possible future?

- Very consistent: 38.5%
- Somewhat consistent: 1.8%
- Somewhat inconsistent: 7.7%
- Very inconsistent: 7.7%
- I’m not sure: 42.3%

How consistent is the general concept of this Preferred Scenario with your own idea of McKinney’s best possible future?

- Very consistent: 22.4%
- Somewhat consistent: 6.1%
- Somewhat inconsistent: 12.2%
- Very inconsistent: 2.0%
- I’m not sure: 57.1%

August 2018 Community Open House Highlights

• Open House held August 9, 2018 at McKinney Performing Arts Center
• 37 participants
• Objectives:
  • Share key concepts of draft ONE McKinney 2040 Plan
  • Receive input about recommendations
• Discussion and input at 7 stations
  • Overall Policy Direction
  • Land Use & Development
  • Mobility
  • Economic Development & Fiscal Health
  • Public Investments
  • Implementation
  • Other Topics

Input on Implementation Priorities

Overview

• Implementation recommendations relate to:
  • City-wide strategy elements
  • District strategies
  • Monitoring and reporting on progress in carrying out the plan
• Initial input on selected action items was obtained in three ways:
  • Via an iPad survey at the June 14th Open House
  • Via an online survey available from June 28th through July 24th
  • Via a “dot exercise” station at the August 9th Open House
• Each input opportunity included a different segment of the McKinney community so they reflect differing perspectives on the future
• Plan will establish priorities among action items

## Community Online Feedback

### Background
- An online survey was available to any interested person during August and September.
- The survey was structured to gain feedback on the overall direction of the plan, the major concepts in the citywide strategies and the key ideas for each of the Districts.
- Respondents could choose how much input to provide.
- Participants were asked about their involvement in the ONE McKinney 2040 process and about their background.

### Results
- 383 people participated in the online survey.
- Results show strong overall support for the Plan.
- Many individual suggestions and comments provided.
How involved have you been in the ONE McKinney 2040 project? Please check all that apply.

Which category below includes your age?
How long have you lived in McKinney?

- Less than 5 years: 25%
- 5 to 10 years: 25%
- 11 to 20 years: 30%
- More than 20 years: 15%
- I don't live in McKinney: 5%

Do you work in McKinney? If so, how long have you worked in McKinney?

- More than 20 years: 25%
- 11 to 20 years: 10%
- 5 to 10 years: 10%
- Less than 5 years: 10%
- I work in McKinney but am retired, student, or otherwise not working: 25%
- I don't work in McKinney: 5%
How consistent is the Vision Statement with your own idea of McKinney’s best possible future?

74.5% said ‘very’ or ‘somewhat consistent’

How consistent is this Preferred Scenario with your own idea of McKinney’s best possible future?

64.4% said ‘very’ or ‘somewhat consistent’
How consistent are these Decision-Making Criteria with the factors you think the City should use in making these decisions?

73.6% said 'very' or 'somewhat consistent'

How consistent are these Guiding Principles with your own ideas of McKinney's best possible future?

Overview

Travel demand modeling involves the forecasting of traffic volumes on a transportation network based on land use, population, and network characteristics. Forecasting future traffic demand on a roadway network is an essential element in mobility planning. The model used for analysis of the OneMcKinney2040 preferred scenario was adapted from the Dallas-Fort Worth Regional Travel Model (DFWRTM) created by the NCTCOG. The updated model incorporated demographic estimates based on the OneMcKinney2040 recommended land uses and analyzed potential alternatives to future US 380 limited-access roadway alignments, as well as alternatives to the City’s thoroughfare network.

This Appendix section presents the travel demand model output for each modeled network alternative to be used as a basis for making additional updates to the Master Thoroughfare Plan upon completion of the US 380 Feasibility Study. Roadways are designated as Level of Service (LOS) A, B, C, D, E, or F based on the volume-to-capacity ratio, which compares the estimate daily volume expected on a roadway to its intended maximum amount of traffic a roadway can handle. LOS A roadways have low traffic volumes with free-flowing conditions while LOS F roadways are extremely congested with stop-and-go traffic conditions. LOS A/B/C/D is considered acceptable under the current Comprehensive Plan.

Alignment Options

As of the summer of 2018, TxDOT is considering 5 alternative roadway alignments for the future expansion of US Highway 380, consisting of 3 bypass alignment options and two alignments using the current US 380 route. To measure the impact of the various US 380 alternatives on the McKinney thoroughfare network, the following 3 network alternatives were analyzed using the DFWRTM:

Revised Master Thoroughfare Plan (MTP)
- The Revised MTP maintains the existing US 380 alignment as a Major Regional Highway with an additional north-south limited-access roadway east of US 75 and the McKinney Airport.

Blue/Red US 380 Bypass Alignment
- For the purpose of the travel demand model, the US 380 Blue and Red alignments provide similar highway connectivity and was modeled as a combined alternative, with a limited-access roadway bypass alignment following much of existing Bloomdale Road and Airport Drive, with an east-west connection at existing US 380 east of US 75.

Yellow Alignment
- The US 380 Yellow alignment is a limited-access roadway bypass that follows much of existing Bloomdale Road and Airport Drive, with an east-west connection north of US 380.

APPENDIX D:

INDUSTRY TRENDS

- **Changing Service Markets**
  - Commercial rent structures that support replacing retail operators with development and real estate offices, along with medical service facilities.

- **Broad Retail Market**
  - Retail that caters to consumers at either end of the spectrum – price conscious to luxury.

- **Boutique Hotel Growth**
  - Growth in boutique hotels supported by technology that has replaced advanced booking systems once exclusively maintained by the larger hotel flags or chains.

- **High Growth High Tech**
  - Growth among technology companies that has surpassed financial institutions and exceeded its demand for office space.

- **Business Trends**
  - Growth in logistics space associated with the enhanced relationship between industrial and retail operations, specifically increase in online sales and transfer of commercial inventories to offsite locations.

- **Logistics Sector Growth**
  - Favorable business environment including competitive labor costs and land prices that has Texas leading the nation in job growth and creation.

- **Texas Economic Growth**
  - National return to manufacturing in the United States following the Great Recession.

- **Return to Manufacturing**
  - Industrial real estate, particularly warehouses, that can house retail inventories and expedite distribution channels.
WHO ARE WE?
This is the new growth market, with a profile similar to the original: young professionals with families that have opted
to trade up to the newest housing in the suburbs. The original Boomburbs neighborhoods began growing in the
1990s and continued through the peak of the housing boom. Most of those neighborhoods are fully developed now.
This is an affluent market but with a higher proportion of mortgages. Rapid growth still distinguishes the Boomburbs
neighborhoods, although the boom is more subdued now than it was 10 years ago. So is the housing market. Residents
are well-educated professionals with a running start on prosperity.

OUR NEIGHBORHOOD
• Growth markets are in the suburban periphery of large metropolitan areas.
• Young families are married with children (Index 221); average household size is 3.22.
• Home ownership is 84% (Index 133), with the highest rate of mortgages, 78% (Index 173).
• Primarily single-family homes, in new neighborhoods, 72% built since 2000 (Index 521).
• Median home value is $293,000 (Index 165).
• Lower housing vacancy rate at 5.3%.
• The cost of affordable new housing comes at the expense of one of the longest
commutes to work, over 30 minutes average, including a disproportionate
number (34.5%) commuting across county lines (Index 146).

RACE AND ETHNICITY
The Diversity Index summarizes racial and ethnic diversity. The index shows the likelihood that two persons, chosen at random from the
same area, belong to different race or ethnic groups. The index ranges from 0 (no diversity) to 100 (complete diversity).

Diversity Index: 60.9

INCOME AND NET WORTH
Net worth measures total household assets (homes, vehicles, investments, etc.) less any debts, secured (e.g., mortgages)
or unsecured (credit cards). Household income and net worth are estimated by Esri.

OCCUPATION BY EARNINGS
The five occupations with the highest number of workers in the market are displayed by median earnings. Data from the Census Bureau’s American Community Survey.

Note: The index represents the ratio of the segment rate to the US rate multiplied by 100.
Consumer expenditures are estimated from data by GfK MRI.

FIGURE 1: AVERAGE HOUSEHOLD BUDGET INDEX
The index compares the average amount spent in this market’s household budgets for
housing, food, apparel, etc., to the average amount spent by all US households. An index
of 100 is average. An index of 120 shows that average spending by consumers in this market
is 20 percent above the national average. Consumer expenditures are estimated by Esri.

FIGURE 2: MEDIAN HOUSEHOLD INCOME
Median household income and median household net worth are estimated by Esri.

FIGURE 3: OCCUPATIONS BY EARNINGS

or unsecured (credit cards). Household income and net worth are estimated by Esri.

OCCUPATION BY EARNINGS
The five occupations with the highest number of workers in the market are displayed by median earnings. Data from the Census Bureau’s American Community Survey.

Note: The index represents the ratio of the segment rate to the US rate multiplied by 100.
Consumer expenditures are estimated from data by GfK MRI.
**MARKET PROFILE** (Consumer preferences are estimated from data by GfK MRI)
- Boomburbs residents prefer late model imports, primarily SUVs, and also luxury cars and minivans.
- This is one of the top markets for the latest in technology, from smartphones to tablets to Internet connectable televisions.
- Style matters in the Boomburbs, from personal appearance to their homes. These consumers are still furnishing their new homes and already remodeling.
- They like to garden but more often contract for home services.
- Physical fitness is a priority, including club memberships and home equipment.
- Leisure includes a range of activities from sports (hiking, bicycling, swimming, golf) to visits to theme parks or water parks.
- Residents are generous supporters of charitable organizations.

**SEGMENT DENSITY**
This map illustrates the density and distribution of the Boomburbs Tapestry Segment by households.

**ESRI INDEXES**
Esri developed three indexes to display average household wealth, socioeconomic status, and housing affordability for the market relative to US standards.

- **Wealth Index**: 192
- **Socioeconomic Status Index**: 174
- **Housing Affordability Index**: 186

**POPULATION CHARACTERISTICS**
Total population, average annual population change since Census 2010, and average density (population per square mile) are displayed for the market relative to the size and change among all Tapestry markets. Data estimated by Esri.

- Population: 900,000 to 11,000,000
- Population Growth (Annual %): -0.5% to 3.0%
- Population Density (Persons per sq. mile): 55 to 25,000

**HOUSING**
Median home value is displayed for markets that are primarily owner occupied, average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri; Housing type and average rent are from the Census Bureau’s American Community Survey.

- **Typical Housing**: Single Family
  - Median Value: $293,000
    - US Median: $177,000
**WHO ARE WE?**

Bright Young Professionals is a large market, primarily located in urban outskirts of large metropolitan areas. These communities are home to young, educated, working professionals. One out of three householders is under the age of 35. Slightly more diverse couples dominate this market, with more renters than homeowners. More than two-thirds of the households live in single-family homes; over a third live in 5+ unit buildings. Labor force participation is high, generally white-collar work, with a mix of food service and part-time jobs (among the college students). Median household income, median home value, and average rent are close to the US values. Residents of this segment are physically active and up on the latest technology.

**OUR NEIGHBORHOOD**

- Approximately 56% of the households rent; 44% own their homes.
- Household type is primarily couples, married (or unmarried), with above average concentrations of both single-parent (Index 125) and single-person (Index 115) households.
- Multiunit buildings or row housing make up 55% of the housing stock (row housing (Index 182), buildings with 5–19 units (Index 277); 44% built 1980–99.
- Average rent is slightly higher than the US (Index 102).
- Lower vacancy rate is at 8.9%.

**SOCIOECONOMIC TRAITS**

- Education completed: 36% with some college or an associate's degree, 30% with a bachelor's degree or higher. Education in progress is 10% (Index 127).
- Unemployment rate is lower at 7.1%, and labor force participation rate of 73% is higher than the US rate.
- These consumers are up on the latest technology.
- They get most of their information from the Internet.
- Concern about the environment, impacts their purchasing decisions.

**INCOME AND NET WORTH**

Net worth measures total household assets (homes, vehicles, investments, etc.) less any debts, secured (e.g., mortgages) or unsecured (credit cards). Household income and net worth are estimated by Esri.

- Median Household Income: $50,000
- Median Net Worth: $28,000

**AVERAGE HOUSEHOLD BUDGET INDEX**

The index compares the average amount spent in this market's household budgets for housing, food, apparel, etc., to the average amount spent by all US households. An index of 100 is average. An index of 120 shows that average spending by consumers in this market is 20 percent above the national average. Consumer expenditures are estimated by Esri.

**OCCUPATION BY EARNINGS**

The five occupations with the highest number of workers in the market are displayed by median earnings. Data from the Census Bureau's American Community Survey.
**MARKET PROFILE**  (Consumer preferences are estimated from data by GfK MRI)
- Own US savings bonds.
- Own newer computers (desktop, laptop, or both), iPads, and 2+ TVs.
- Go online to do banking, access YouTube or Facebook, visit blogs, and play games.
- Use cell phones to text, redeem mobile coupons, listen to music, and check for news and financial information.
- Find leisure going to bars/clubs, attending concerts, going to the zoo, and renting DVDs from Redbox or Netflix.
- Read sports magazines and participate in a variety of sports, including backpacking, basketball, football, bowling, Pilates, weight lifting, and yoga.
- Eat out often at fast-food and family restaurants.

**POPULATION CHARACTERISTICS**
Total population, average annual population change since Census 2010, and average density (population per square mile) are displayed for the market relative to the size and change among all Tapestry markets. Data estimated by Esri.

- Population: 900,000 - 1,000,000
- Population Growth (Annual %): 0.8%
- Population Density (Persons per sq. mile): 731

**ESRI INDEXES**
Esri developed three indexes to display average household wealth, socioeconomic status, and housing affordability for the market relative to US standards.

- Wealth Index: 66
- Socioeconomic Status Index: 103
- Housing Affordability Index: 152

**HOUSING**
Median home value is displayed for markets that are primarily owner occupied, average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri; Housing type and average rent are from the Census Bureau’s American Community Survey.

**SEGMENT DENSITY**
This map illustrates the density and distribution of the Bright Young Professionals Tapestry Segment by households.
WHO ARE WE?

Enterprising Professionals residents are well educated and climbing the ladder in STEM (science, technology, engineering, and mathematical) occupations. They change jobs often and therefore choose to live in condos, town homes, or apartments; many still rent their homes. The market is fast-growing, located in lower density neighborhoods of large metro areas. Enterprising Professionals residents are diverse, with Asians making up over one-fifth of the population. This young market makes over one and a half times more income than the US median, supplementing their income with high-risk investments. At home, they enjoy the Internet and TV on high-speed connections with premier channels and services.

OUR NEIGHBORHOOD

- Almost half of households are married couples, and 29% are single person households.
- Housing is a mixture of suburban single-family homes, row homes, and larger multifamily structures.
- Close to three quarters of the homes were built after 1980; 25% are newer, built after 2000.
- Renters make up nearly half of all households.

SOCIOECONOMIC TRAITS

- Median household income one and a half times that of the US.
- Over half hold a bachelor’s degree or higher.
- Early adopters of new technology in hopes of impressing peers with new gadgets.
- Enjoy talking about and giving advice on technology.
- Half have smartphones and use them for news, accessing search engines, and maps.
- Work long hours in front of a computer.
- Strive to stay youthful and healthy, eat organic and natural foods, run and do yoga.
- Buy name brands and trendy clothes online.

INCOME AND NET WORTH

Net worth measures total household assets (homes, vehicles, investments, etc.) less any debts, secured (e.g., mortgages) or unsecured (credit cards). Household income and net worth are estimated by Esri.

OCCUPATION BY EARNINGS

The occupations with the highest number of workers in the market are displayed by median earnings. Data from the Census Bureau’s American Community Survey.
MARKET PROFILE  (Consumer preferences are estimated from data by GfK MRI)

- Buy digital books for tablet reading, along with magazines and newspapers.
- Frequent the dry cleaner.
- Travel to foreign and domestic destinations common.
- Watch movies and TV with video-on-demand and HDTV over a high-speed connection.
- Convenience is key—shop at Amazon.com and pick up drugs at the Target pharmacy.
- Eat out at The Cheesecake Factory, Chipotle Mexican, and Panera Bread; drop by Starbucks for coffee.
- Leisure activities include gambling, trips to museums and the beach.
- Have health insurance and a 401(k) through work.

POPOPULATION CHARACTERISTICS
Total population, average annual population change since Census 2010, and average density (population per square mile) are displayed for the market relative to the size and change among all Tapestry markets. Data estimated by Esri.

- Population: 1,000,000
- Population Growth (Annual %): 1.5%
- Population Density (Persons per sq. mile): 1,427

ESRI INDEXES
Esri developed three indexes to display average household wealth, socioeconomic status, and housing affordability for the market relative to US standards.

- Wealth Index: 103
- Socioeconomic Status Index: 138
- Housing Affordability Index: 121

HOUSING
Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau’s American Community Survey.

Typical Housing: Multiunits,
Single Family
Median Value: $340,200
US Median: $297,300

SEGMENT DENSITY
This map illustrates the density and distribution of the Enterprising Professionals Tapestry Segment by households.
WHO ARE WE?

These young families, many of whom are recent immigrants, focus their life and work around their children. Fresh Ambitions residents are not highly educated, but many have overcome the language barrier and earned a high school diploma. They work overtime in service, in skilled and unskilled occupations, and spend what little they can save on their children. Multigenerational families and close ties to their culture support many families living in poverty; income is often supplemented with public assistance and Social Security. Residents spend more than one-third of their income on rent, though they can only afford to live in older row houses or multiunit buildings. They budget wisely not only to make ends meet but also to save for a trip back home.

OUR NEIGHBORHOOD

- Resides in mostly row houses or 2-4 unit buildings; many were built before 1950, located in major urban cities.
- They predominantly rent; average gross rent is a little below the US average.
- Most households have at least one vehicle, and commuters drive alone to work. Walking to work or taking public transportation is common too.
- Half of the households have children of all ages and are comprised of more single-parent than married-couple families. There are more than three persons per household; the proportion of multigenerational families is twice that of the US.

SOCIOECONOMIC TRAITS

- One in four is foreign-born, supporting a large family on little income. Fresh Ambitions residents live on the edge of poverty but are an ambitious community. They will take on overtime work when they can.
- Unemployment is high for these recent immigrants.
- One in three has overcome the language barrier and earned a high school diploma.
- Price-conscious consumers, they budget for fashion, not branding. However, parents are happy to spoil their brand savvy children.
- These residents maintain close ties to their culture; they save money to visit family, but seek out discount fares over convenience.

INCOME AND NET WORTH

Net worth measures total household assets (homes, vehicles, investments, etc.) less any debts, secured (e.g., mortgages) or unsecured (credit cards). Household income and net worth are estimated by Esri.

**WHO ARE WE?**

- **Median Age:** 28.0
- **Average Household Size:** 3.13
- **Median Household Income:** $26,000

- Price-conscious consumers, they budget for fashion, not branding. However, parents are happy to spoil their brand savvy children.
- These residents maintain close ties to their culture; they save money to visit family, but seek out discount fares over convenience.
MARKET PROFILE
- Young families are the focus; Fresh Ambitions residents must budget for baby food and disposable diapers. Baby and parenthood magazines are their chosen reading material.
- These young, newly established residents own cell phones, not landlines.
- Almost half of the households can access the Internet via home PC; Spanish-language web sites and chat rooms are popular.
- More than half of the households subscribe to a cable service; Spanish TV networks, BET, and children’s shows are popular.
- When their budget permits, they wire money back home. Less than half of consumers own a credit card and only a quarter have opened a savings account.

SEGMENT DENSITY
This map illustrates the density and distribution of the Fresh Ambitions Tapestry Segment by households.
WHO ARE WE?

Middleburg neighborhoods transformed from the easy pace of country living to semirural subdivisions in the last decade, when the housing boom reached out. Residents are conservative, family-oriented consumers. Still more country than rock and roll, they are thrifty but willing to carry some debt and are already investing in their futures. They rely on their smartphones and mobile devices to stay in touch and pride themselves on their expertise. They prefer to buy American and travel in the US. This market is younger but growing in size and assets.

OUR NEIGHBORHOOD

- Semirural locales within metropolitan areas.
- Neighborhoods changed rapidly in the previous decade with the addition of new single-family homes.
- Include a number of mobile homes (Index 152).
- Affordable housing, median value of $158,000 (Index 89) with a low vacancy rate.
- Young couples, many with children; average household size is 2.73.

SOCIOECONOMIC TRAITS

- Education: 66% with a high school diploma or some college.
- Unemployment rate lower at 7.4% (Index 85).
- Labor force participation typical of a younger population at 66.7% (Index 106).
- Traditional values are the norm here—faith, country, and family.
- Prefer to buy American and for a good price.
- Comfortable with the latest in technology, for convenience (online banking or saving money on landlines) and entertainment.

AGE BY SEX

| Median Age: 35.3 |
| US: 37.6 |

RACE AND ETHNICITY

The Diversity Index summarizes racial and ethnic diversity. The index shows the likelihood that two persons, chosen at random from the same area, belong to different race or ethnic groups. The index ranges from 0 (no diversity) to 100 (complete diversity).

Diversity Index: 56.3

US: 62.1

INCOME AND NET WORTH

Net worth measures total household assets (homes, vehicles, investments, etc.) less any debts, secured (e.g., mortgages) or unsecured (credit cards). Household income and net worth are estimated by Esri.

Median Household Income

| US Median: $51,000 |

Median Net Worth

| US Median: $70,000 |

AVERAGE HOUSEHOLD BUDGET INDEX

The index compares the average amount spent in this market’s household budgets for housing, food, apparel, etc., to the average amount spent by all US households. An index of 100 is average. An index of 120 shows that average spending by consumers in this market is 20 percent above the national average. Consumer expenditures are estimated by Esri.

OCCUPATION BY EARNINGS

The five occupations with the highest number of workers in the market are displayed by median earnings. Data from the Census Bureau’s American Community Survey.
### MARKET PROFILE
(Consumer preferences are estimated from data by GfK MRI)
- Residents are partial to trucks, SUVs, and occasionally, convertibles, or motorcycles.
- Entertainment is primarily family-oriented, TV and movie rentals or theme parks and family restaurants.
- Spending priorities also focus on family (children’s toys and apparel) or home DIY projects.
- Sports include hunting, target shooting, bowling, and baseball.
- TV and magazines provide entertainment and information.
- Media preferences include country and Christian channels.

### POPULATION CHARACTERISTICS
Total population, average annual population change since Census 2010, and average density (population per square mile) are displayed for the market relative to the size and change among all Tapestry markets. Data estimated by Esri.

WHO ARE WE?
Professional Pride consumers are well-educated career professionals that have prospered through the Great Recession. To maintain their upscale suburban lifestyles, these goal oriented couples work, often commuting far and working long hours. However, their schedules are fine-tuned to meet the needs of their school age children. They are financially savvy, they invest wisely and benefit from interest and dividend income. So far, these established families have accumulated an average of 1.5 million dollars in net worth, and their annual household income runs at more than twice the US level. They take pride in their newer homes and spend valuable time and energy upgrading. Their homes are furnished with the latest in home trends, including finished basements equipped with home gyms and in-home theaters.

OUR NEIGHBORHOOD
• Typically owner occupied (Index 173), single-family homes are in newer neighborhoods. 95% of units were built in the last 20 years.
• Neighborhoods are primarily located in the suburban periphery of large metropolitan areas.
• Most households own two or three vehicles; long commutes are the norm.
• Homes are valued at more than twice the US median home value, although three out of four homeowners have mortgages to pay off.
• Families are mostly married couples (almost 80% of households), and more than half of these families have kids. Their average household size, 3.11, reflects the presence of children.

SOCIOECONOMIC TRAITS
• Professional Pride consumers are highly qualified in the science, technology, law, or finance fields; they’ve worked hard to build their professional reputation or their start-up businesses.
• These consumers are willing to risk their accumulated wealth in the stock market.
• They have a preferred financial institution, regularly read financial news, and use the Internet for banking transactions.
• These residents are goal oriented and strive for lifelong earning and learning.
• Life here is well organized; routine is a key ingredient to daily life.

Notes:
* Professional Pride consumers are highly qualified in the science, technology, law, or finance fields; they’ve worked hard to build their professional reputation or their start-up businesses.
* These consumers are willing to risk their accumulated wealth in the stock market.
* They have a preferred financial institution, regularly read financial news, and use the Internet for banking transactions.
* These residents are goal oriented and strive for lifelong earning and learning.
* Life here is well organized; routine is a key ingredient to daily life.
MARKET PROFILE
(Consumer preferences are estimated from data by GfK MRI)

• These frequent travelers take several domestic trips a year, preferring to book their plane tickets, accommodations, and rental cars via the Internet.
• Residents take pride in their picture-perfect homes, which they continually upgrade. They shop at Home Depot and Bed Bath & Beyond to tackle the smaller home improvement and remodeling tasks but contract out the larger projects.
• To keep up with their busy households, they hire housekeepers or professional cleaners.
• Residents are prepared for the ups and downs in life; they maintain life insurance; homeowners and auto insurance, as well as medical, vision, dental, and prescription insurance through work. They are actively investing for the future; they hold 401(k)s and IRA retirement plans, plus securities.
• Consumers spend on credit but have the disposable income to avoid a balance on their credit cards. They spend heavily on Internet shopping; Amazon.com is a favorite website.
• Consumers find time in their busy schedules for themselves. They work out in their home gyms, owning at least a treadmill, an elliptical, or weightlifting equipment. They also visit the salon and spa regularly.
• All family members are avid readers; they read on their smartphones, tablets, and e-readers but also read hard copies of epicurean, home service, and sports magazines.
• Residents, both young and old, are tech savvy; they not only own the latest and greatest in tablets, smartphones, and laptops but actually use the features each has to offer.

WHO ARE WE?

Retirement Communities neighborhoods are evenly distributed across the country. They combine single-family homes and independent living with apartments, assisted living, and continuing care nursing facilities. Over half of the housing units are in multiunit structures, and the majority of residents have a lease. This group enjoys watching cable TV and stays up-to-date with newspapers and magazines. Residents take pride in fiscal responsibility and keep a close eye on their finances. Although income and net worth are well below national averages, residents enjoy going to the theater, golfing, and taking vacations. While some residents enjoy cooking, many have paid their dues in the kitchen and would rather dine out.

OUR NEIGHBORHOOD

- Much of the housing was built in the 1970s and 1980s—a mix of single-family homes and large multiunit structures that function at various levels of senior care.
- Small household size; many residents have outlived their partners and live alone.
- Over half of the homes are renter occupied.
- Average rent is slightly below the US average.
- One in five households has no vehicle.

SOCIOECONOMIC TRAITS

- Brand loyal, this segment will spend a little more for their favorite brands, but most likely they will have a coupon.
- Frugal, they pay close attention to finances.
- They prefer reading magazines over interacting with computers.
- They are health conscious and prefer name brand drugs.

WHO ARE WE?
Soccer Moms is an affluent, family-oriented market with a country flavor. Residents are partial to new housing away from the bustle of the city but close enough to commute to professional job centers. Life in this suburban wilderness offsets the hectic pace of two working parents with growing children. They favor time-saving devices, like banking online or housekeeping services, and family-oriented pursuits.

OUR NEIGHBORHOOD
- Soccer Moms residents prefer the suburban periphery of metropolitan areas.
- Predominantly single family, homes are in newer neighborhoods, 36% built in the 1990s (Index 253), 31% built since 2000.
- Owner-occupied homes have high rate of mortgages at 74% (Index 163), and low rate vacancy at 5%.
- Median home value is $226,000.
- Most households are married couples with children; average household size is 2.96.
- Most households have 2 or 3 vehicles; long travel time to work including a disproportionate number commuting from a different county (Index 133).

SOcioEconomic Traits
- Education: 37.7% college graduates; more than 70% with some college education.
- Low unemployment at 5.9%; high labor force participation rate at 72%; 2 out of 3 households include 2+ workers (Index 124).
- Connected, with a host of wireless devices from iPods to tablets—anything that enables convenience, like banking, paying bills, or even shopping online.
- Well insured and invested in a range of funds, from savings accounts or bonds to stocks.
- Carry a higher level of debt, including first (Index 159) and second mortgages (Index 154) and auto loans (Index 151).

Note: The Index represents the ratio of the segment rate to the US rate multiplied by 100.

MARKET PROFILE (Consumer preferences are estimated from data by GfK MRI)

- Most households own at least 2 vehicles; the most popular types are minivans and SUVs.
- Family-oriented purchases and activities dominate, like 4+ televisions (Index 165), movie purchases or rentals, children’s apparel and toys, and visits to theme parks or zoos.
- Outdoor activities and sports are characteristic of life in the suburban periphery, like bicycling, jogging, golfing, boating, and target shooting.
- Home maintenance services are frequently contracted, but these families also like their gardens and own the tools for minor upkeep, like riding mowers and tillers.

ESRI INDEXES
Esi developed three indexes to display average household wealth, socioeconomic status, and housing affordability for the market relative to US standards.

- **Wealth Index**: Median home value is displayed for markets that are primarily owner occupied, average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau’s American Community Survey.

**Population Characteristics**
Total population, average annual population change since Census 2010, and average density (population per square mile) are displayed for the market relative to the size and change among all Tapestry markets. Data estimated by Esri.

- Population: 11,000,000
- Population Growth (Annual %): 0, 0.5%, 3.0%
- Population Density (Persons per sq. mile): 25,000

**Housing**
Median home value is displayed for markets that are primarily owner occupied, average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau’s American Community Survey.

- Typical Housing: Single Family
- Median Value: $226,000
- US Median: $177,000

**SEGMENT DENSITY**
This map illustrates the density and distribution of the Soccer Moms Tapestry Segment by households.
WHO ARE WE?
Up and Coming Families is a market in transition—residents are younger and more mobile and ethnically diverse than the previous generation. They are ambitious, working hard to get ahead, and willing to take some risks to achieve their goals. The recession has impacted their financial well-being, but they are optimistic. Their homes are new; their families are young. And this is one of the fastest-growing markets in the country.

Average Household Size: 3.10
Median Age: 30.7
Median Household Income: $64,000

OUR NEIGHBORHOOD
- New suburban periphery: new families in new housing subdivisions.
- Building began in the housing boom of the 2000s and continues in this fast-growing market.
- Single-family homes with a median value of $174,000 and a lower vacancy rate.
- The price of affordable housing: longer commute times (Index 116).

SOCIOECONOMIC TRAITS
- Education: 66% have some college education or degree(s).
- Hard-working labor force with a participation rate of 71% (Index 114) and low unemployment at 7% (Index 81).
- Most households (63%) have 2 or more workers.
- Careful shoppers, aware of prices, willing to shop around for the best deals and open to influence by others’ opinions.
- Seek the latest and best in technology.
- Young families still feathering the nest and establishing their style.

RACE AND ETHNICITY
The Diversity Index summarizes racial and ethnic diversity. The index shows the likelihood that two persons, chosen at random from the same area, belong to different race or ethnic groups. The index ranges from 0 (no diversity) to 100 (complete diversity).

Diversity Index: 72.4
US: 62.1

INCOME AND NET WORTH
Net worth measures total household assets (homes, vehicles, investments, etc.) less any debts, secured (e.g., mortgages) or unsecured (credit cards). Household income and net worth are estimated by Esri.

Median Household Income
$64,000

Median Net Worth
$96,000

AVERAGE HOUSEHOLD BUDGET INDEX
The index compares the average amount spent in this market’s household budgets for housing, food, apparel, etc., to the average amount spent by all US households. An index of 100 is average. An index of 120 shows that average spending by consumers in this market is 20 percent above the national average. Consumer expenditures are estimated by Esri.

OCCUPATION BY EARNINGS
The five occupations with the highest number of workers in the market are displayed by median earnings. Data from the Census Bureau’s American Community Survey.

<table>
<thead>

**MARKET PROFILE**  (Consumer preferences are estimated from data by GfK MRI)

- Rely on the Internet for entertainment, information, shopping, and banking.
- Prefer imported SUVs or compact cars, late models.
- Carry debt from credit card balances to student loans and mortgages, but also maintain retirement plans and make charitable contributions.
- Busy with work and family; use home and landscaping services to save time.
- Find leisure in family activities, movies at home, trips to theme parks or the zoo, and sports, from backpacking and baseball to weight lifting and yoga.

**POPULATION CHARACTERISTICS**
Total population, average annual population change since Census 2010, and average density (population per square mile) are displayed for the market relative to the size and change among all Tapestry markets. Data estimated by Esri.

- Population: 900,000 to 1,000,000
- Population Growth (Annual %): -0.5% to 3.0%
- Population Density (Persons per sq. mile): 863 to 25,000

**ESRI INDEXES**
Esri developed three indexes to display average household wealth, socioeconomic status, and housing affordability for the market relative to US standards.

- Wealth Index: 95 (High), 350 (Low)
- Socioeconomic Status Index: 119 (High), 350 (Low)
- Housing Affordability Index: 193 (High), 350 (Low)

**HOUSING**
Median home value is displayed for markets that are primarily owner occupied, average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau’s American Community Survey.

- Typical Housing: Single Family
  - Median Value: $174,000
  - US Median: $177,000

**SEGMENT DENSITY**
This map illustrates the density and distribution of the Up and Coming Families Tapestry Segment by households.

WHO ARE WE?
Family is central within these diverse communities. Hispanics make up more than 70% of the residents. More than one in four are foreign born, bringing rich cultural traditions to these neighborhoods in the urban outskirts. Dominating this market are younger families with children or single-parent households with multiple generations living under the same roof. These households balance their budgets carefully but also indulge in the latest trends and purchase with an eye to brands. Most workers are employed in skilled positions across the manufacturing, construction, or retail trade sectors.

OUR NEIGHBORHOOD
- Family market; over a third of all households are married couples with children, with a number of multigenerational households and single-parent families; household size is higher at 3.59.
- While most residents live in single-family homes, almost 10% of householders reside in mobile home parks.
- Homes are owner occupied, with slightly higher monthly costs (Index 106) but fewer mortgages (Index 89).
- Most are older homes, more than 60% built from 1950 to 1989.
- Most households have one or two vehicles; many commuters car pool or walk to work (Index 152).
- Barrios Urbanos residents live within the urban periphery of larger metropolitan areas across the South and West.

SOCIOECONOMIC TRAITS
- While a majority finished high school, over 40% have not (Index 303).
- Unemployment is higher at 12% (Index 135); labor force participation is slightly lower at 61%.
- Nearly one in four households is below the poverty level (Index 179).
- Residents balance their budgets carefully by spending only on necessities and limiting activities like dining out.
- Many have no financial investments or retirement savings, but they have their homes.

INCOME AND NET WORTH
Net worth measures total household assets (homes, vehicles, investments, etc.) less any debts, secured (e.g., mortgages) or unsecured (credit cards). Household income and net worth are estimated by Esri.

AVERAGE HOUSEHOLD BUDGET INDEX
The index compares the average amount spent in this market’s household budgets for housing, food, apparel, etc., to the average amount spent by all US households. An index of 100 is average. An index of 120 shows that average spending by consumers in this market is 20 percent above the national average. Consumer expenditures are estimated by Esri.

OCCUPATION BY EARNINGS
The five occupations with the highest number of workers in the market are displayed by median earnings. Data from the Census Bureau’s American Community Survey.
### MARKET PROFILE

*Consumer preferences are estimated from data by GfK MRI.*

- Residents shop at discount department stores for baby and children’s products.
- Many households subscribe to satellite television to watch their favorite Hispanic programs.
- Magazines are extremely popular sources of news and the latest trends, including baby, bridal, and parenthood types of magazines.
- Typical of this diverse segment, Hispanic programming dominates the radio dials.

### POPULATION CHARACTERISTICS

Total population, average annual population change since Census 2010, and average density (population per square mile) are displayed for the market relative to the size and change among all Tapestry markets. Data estimated by Esri.

- **Population**: 900,000 - 11,000,000
- **Population Growth (Annual %)**: -0.5% - 3.0%
- **Population Density (Persons per sq. mile)**: 0 - 25,000

### ESRI INDEXES

Esri developed three indexes to display average household wealth, socioeconomic status, and housing affordability for the market relative to US standards.

- **Wealth Index**: 49
- **Socioeconomic Status Index**: 72
- **Housing Affordability Index**: 194

### TAPESTRY SEGMENTATION

**Home Ownership**

- **US Percentage**: 63.6%
- **Own**: 60.9%
- **Rent**: 39.1%

**Typical Housing**

- **Single Family**, **Median Value**: $92,000, **US Median**: $177,000

### SEGMENT DENSITY

This map illustrates the density and distribution of the **Barrios Urbanos** Tapestry Segment by households.
