

January 6, 2023

The Governor's Office of Budget, Planning and Policy
P.O. Box 12428
Austin, TX 78711

To whom it may concern,

In September 2020, the McKinney Police Department implemented an Unmanned Aircraft System (UAS) Program and began flight operations in January 2021. The Department has 28 sworn officers designated as FAA-licensed remote pilots. The primary intent of the program is to utilize the UAS for search and rescue operations, crime scene photography, crash reconstruction mapping, major disaster scenes, tactical situations, community events, and other actions as deemed necessary. The UAS Program has allowed officers to continue performing law enforcement operations while enhancing officer safety and contributing to the success of numerous criminal investigations by providing aerial footage of accident scenes, event sites, and warrant locations.

It is the policy of the McKinney Police Department that all pilots utilize the UAS when deemed appropriate in the performance of their official duties. Deployment and operation of the UAS, or the collection and use of any audio/video recordings or other data originating from or captured by these systems, must be in compliance with department policy and applicable laws, rules, and regulations.

Since the inception of the program at the McKinney Police Department, pilots have logged a total of 547 flights. Criminal Investigations accounted for 176 flights. The additional 301 flights were recorded for training, and the remaining 70 flights resulted from other LE operations. From January 2021 through December 2022, program expenditures funded by the McKinney Police Department totaled \$106,807.

Sincerely,

A handwritten signature in blue ink, appearing to read "Joe Ellenburg", written in a cursive style.

Joe Ellenburg
Chief of Police

JE/cb

JOE ELLENBURG, CHIEF OF POLICE

McKinney Police Department
2200 Taylor Burk Dr. McKinney, Texas 75071
